### Charging Instructions

- Connect the charger only when the scooter is turned off.
- Use only the company-authorized charger.
- Do not drive the scooter while it is charging.
- After charging, unplug the socket and secure the cover.
- Do not overcharge the battery.

## Operating Instructions

- Starting : Turn on the scooter using the key.
- Gears : Select gears in order: Gear 1 > Gear 2 > Gear 3.
- Speed Control : Rotate the throttle to control speed.
- Braking : Press the brakes slowly; avoid sudden braking.

## Maintenance Guidelines

- Service the battery every 3 months.
- Regularly check the brakes, tires, and lights.
- When washing with water, ensure no water enters the battery or motor areas.
- If the scooter is not used for a long period, disconnect the battery and store it separately.

## Safety Warnings

- Do not allow children to drive the scooter.
- Do not exceed the maximum load capacity.
- Drive carefully during rainy conditions.
- Always wear a helmet.
